🎓 EDUCATION

- 09/23 – 12/26 **ELLIS PhD Candidate in Computer Science**, Technical University of Darmstadt
Research: Privacy-Preserving High-Fidelity Synthetic Therapy Session Generation
Advisors: Prof. Iryna Gurevych, Prof. Aurélien Bellet, Prof. Tanmoy Chakraborty
- 2018 – 2023 **Integrated Dual Degree in AI/Electronics**, IIT Kharagpur CGPA: 9.61/10
B.Tech in Electronics and Electrical Communication Engineering
M.Tech in Artificial Intelligence, Machine Learning and Applications
Minor in Computer Science and Engineering
Micro Specialisation in Embedded Control, Software, Modelling and Design

💼 WORK EXPERIENCE

- 10/25 – 03/26 **Visiting Researcher at Premedical Lab** under Prof. Aurélien Bellet, INRIA Montpellier, France
Privacy-Utility Trade-offs in Synthetic Therapy Session Generation
- Analyzed privacy-utility trade-offs across different levels of private input in synthetic therapy session generation.
 - Found more private input improves diversity but raises attribute leakage (+52.8%), linkage (+37.7%), and MIA (+27.2%).
 - Developed noise-based defenses reducing attribute leakage (-35%) and linkage/MIA (-20%), preserving utility.
- 05/22 – 07/22 **Research Intern at Articulab, Cognitive Machine Learning Group** under Prof. Justine Cassell, INRIA Paris, France
Multimodal Turn Taking in Conversational Agents
- Developed a multimodal turn-taking predictor combining LSTMs, attention, and a pretrained transformer over audio, visual, and text signals and achieved a +0.09 **macro-F1** improvement over SOTA models.
- 06/21 – 08/21 **Research Intern at Theoretical Foundations of AI** under Prof. Debarghya Ghoshdastidar, TU Munich, Germany
Revenue Function of Hierarchical Clustering in Comparison Framework
- Introduced a revenue function to evaluate hierarchical clustering from triplet/quadruplet comparisons.
 - Proposed two comparison-based average-linkage variants, achieving +0.9 rank correlation with standard clustering metrics.

🎓 THESIS

- 09/23 – 12/26 **PhD Thesis**, under Prof. Iryna Gurevych, **UKP Lab**, TU Darmstadt
Privacy-Preserving High-Fidelity Synthetic Therapy Session Generation
- Developed a multi-agent LLM framework for synthetic therapy session generation, achieving **77.2% expert preference** across 9 dimensions over SOTA generation pipelines.
 - Developed a Client Psychological Graph-based framework, achieving **top rank** in expert evaluation and +4.3% **utility** on a counseling benchmark with no safety loss using a Llama3-8B fine-tuned on generated data.
- 08/22 – 04/23 **Master's Thesis**, under Prof. Jiaul Hoque Paik, **CoEAI**, IIT Kharagpur
Universal Transformer for Multimodal Self-supervised Learning
- Proposed a novel crossmodal contrastive loss to train a 12-layer transformer for image-text embeddings on COCO, achieving performance **competitive with Sentence Transformers** on text-only tasks.
- 07/21 – 04/22 **Bachelor's Thesis**, under Prof. Pawan Goyal, **Dept. of CSE**, IIT Kharagpur
Discourse Mutual Information for Dialogue Understanding and Response Generation
- Proposed a novel discourse mutual-information loss for a transformer-based dual encoder.
 - Achieved improvements of +4.1% on dialogue classification and +10.6% on dialogue evaluation over SOTA.

🏆 ACHIEVEMENTS

- **ELIZA Scholarship**: ELLIS exchange at INRIA Montpellier (2025)
- **Silver Medal**: Dept. Rank 1, Electronics, IIT Kharagpur (2023)
- **Charpak Lab Scholarship**: Summer internship at INRIA (2022)
- **GKF International Internship Scholarship**: Summer internship at INRIA (2022)
- **DAAD WISE Scholarship**: Summer internship at TU Munich (2021)

⚙️ SKILLS

- **Programming Languages and Softwares**: Python / C++ / C / MATLAB / OpenSmile / OpenFace
- **Libraries**: PyTorch / DeepSpeed / vLLM / HuggingFace / LangChain / ScikitLearn / Pandas / NumPy
- **Concepts**: Synthetic Data Generation / LLM Evaluation / Differential Privacy / RAG / MCP / Agentic Workflows

TEACHING AND ACADEMIC SERVICE

- 04/25 – 10/25 **Master's Thesis Supervision:** Mateusz Ciesielski, Predicting Personality Domains: A Multimodal Approach.
- 09/23 – 02/24 **Master's Thesis Supervision:** Paulina Kuczykowska, Predicting Depression Severity from Therapy Dialogues.
- 2024 – 2026 **Teaching Assistant,** TU Darmstadt: Ethics for Natural Language Processing.
- 2023 **Teaching Assistant,** IIT Kharagpur: Big Data Processing.
- 2025- **Reviewer:** AAAI AISI Track (2026, 2027), TMLR (2025, 2026), ACL Rolling Review (August 2026).
